Service doesn't require vast resources - what's needed is a good intent and consistent effort

- PM Narendra Modi

FROM THE CEO'S DESK

Dear Readers,

As India marks 12 years of transformative governance, this edition of MyGov Pulse takes you through a remarkable journey of progress, empowerment, and nation-building. From the inspiring highlights of the latest Mann Ki Baat to stories of innovation, service, and citizen participation, this issue captures the spirit of a confident and aspirational New India.

At the heart of this edition is a special feature on 12 Years of Transformative Governance, exploring the five pillars that have shaped India's development journey—Rashtra Nirman, Lok Seva, Sashaktikaran, Rashtra Pratham, and

Vikas Bhi, Virasat Bhi. Through data-driven insights and impactful stories, we revisit key milestones in economic growth, infrastructure, social welfare, empowerment, national security, cultural resurgence, and sustainability.

This edition also celebrates six years of PM SVANidhi, highlighting how the scheme has empowered millions of street vendors through credit access, digital inclusion, and financial independence. We further examine the impact of the 19th Rozgar Mela, showcasing India's employment vision and emerging opportunities in future-ready sectors.

On the global front, we bring you key outcomes from Prime Minister Narendra Modi's landmark five-nation tour, reflecting India's expanding international partnerships and growing global influence.

Don't miss our Engagement Corner and Social Media Highlights, where citizens can participate, contribute, and stay connected with India's transformative journey.

Happy Reading!

Ajit Kumar, (IAS)

MANN KI BAAT HIGHLIGHTS

Scan Here to watch 134th Ep. of Mann Ki Baat

Here are the standout moments from the 130th episode of Mann Ki Baat, where Prime Minister Modi reflected on recent events and shared inspiring stories driving positive change across the country

Track Records Shattered

Gurindervir Singh, Vishal TK, Tejaswin Shankar, Dev Meena, and Kuldeep Kumar made new records in the National Senior Athletics Federation competition.

Ancient Copper Plates Unearthed

Under the Gyan Bharatam Abhiyan, rare copper plates have been discovered in Chhattisgarh. They are believed to belong to the Panduvanshi dynasty.

Dolphin Rescue Ambulance Launched

Bharat's first Ganga Dolphin Rescue Ambulance, created under the Namami Gange Programme, has been designed like a mobile hospital for keeping the dolphin safe.

Tribute to Soldiers:

Inspired by Mann Ki Baat, Girija Amma motivated students across her schools to contribute ₹1 daily for soldiers, raising nearly ₹40 lakh annually.

ENGAGEMENT CORNER

Committed to its mission, MyGov consistently presents a dynamic range of interactive initiatives spanning diverse fields. Seize these opportunities to actively engage and win exciting prizes, participation certificates & more. Ensure your voice contributes to the development of a new India!

BHARAT GI Quiz

Celebrate the remarkable legacy of India's GI-tagged products. From timeless craftsmanship to regional excellence, explore the stories that make India diverse and vibrant.

SAAL

VISHWAS KE, VIKAS KE, JAN-KALYAN KE

Over the last 12 years, India has witnessed change at a scale and speed rarely seen in its history. What began as a promise of Minimum Government, Maximum Governance has evolved into a nationwide movement focused on empowerment, inclusion, infrastructure, innovation and national pride.

This transformation is visible not only in policies, but in the everyday lives of citizens — in homes receiving tap water and electricity, farmers receiving direct support, women becoming entrepreneurs, youth leading startups, villages getting digital connectivity, and heritage sites reclaiming their lost grandeur.

“The next 25 years are the **Amrit Kaal** for fulfilling the dreams of every citizen and building a Viksit Bharat — PM Narendra Modi

RASHTRA NIRMAN

A New Era of Nation Building

Over the past decade, India has witnessed a transformational phase of nation building driven by reforms, infrastructure expansion, technology adoption, and economic resilience. What was once viewed as a slow-moving economy marked by policy paralysis has evolved into one of the world's fastest-growing major economies, powered by a vision of Atmanirbhar Bharat and Viksit Bharat@2047.

This transformation has been built on interconnected pillars — economic growth, infrastructure modernisation, ease of living, ease of doing business, technology-led governance, and the rapid emergence of the North East as a new growth engine.

Economic Strength

India's economic journey over the last 12 years reflects growing resilience, investor confidence, and global competitiveness.

- » GDP reached ₹323.12 lakh crore in 2025-26
- » Exports touched an all-time high of USD 863 billion in 2025-26
- » Forex reserves crossed USD 700 billion
- » Electronics production surged from ₹1.9 lakh crore to ₹11.3 lakh crore

Infrastructure Driving Transformation at Scale

Massive investments in roads, railways, ports, airports, logistics, and urban mobility have reshaped connectivity across India.

- » National highways expanded to 1.46 lakh km
- » Metro network grew from 248 km to 1,155 km
- » Railway electrification reached 99.6% of broad-gauge network

- » Port capacity nearly doubled to 2,762 MMTPA
- » Installed power capacity rose to 532.74 GW

Technology Transforming Governance

Technology has emerged as a key driver of India's transformation, democratising access to services, finance, and innovation.

- » UPI processed 23.20 billion transactions in May 2026
- » Internet connections crossed 100 crore
- » 69 crore+ DigiLocker users connected digitally
- » Broadband connections rose from 6.1 crore to over 100 crore

Northeast India Emerging as a Growth Engine

A region once constrained by limited connectivity is now witnessing rapid infrastructure and economic growth.

- » Violence declined by nearly 90% since 2015
- » Railway expansion crossed 1,900 km
- » Domestic tourist visits nearly doubled
- » Over ₹7.12 lakh crore allocated under 10% GBS since 2014

Ease of Living and Ease of Doing Business

Governance reforms over the last 12 years have focused on simplifying lives for citizens and creating a more business-friendly ecosystem.

- » India improved 79 ranks in Ease of Doing Business rankings
- » UPI transactions surged from 2 crore (2016-17) to 24,162 crore (2025-26)
- » Jan Dhan accounts increased to 58 crore+
- » Data costs reduced from ₹269/GB to ₹7.9/GB
- » Over 4,623 compliances decriminalised or eliminated

12 Years of Dedication, 12 Years of Results

Sectors	2014	2026	Growth
Digital Payments	Limited	18+ bn/month	Explosive Growth
Airports	74	160+	2.2X
Rail Electrification	21k km	65k+ km	3X

Internet Users	25 crore	95+ crore	3.8X
Semiconductors	None	5+ major fab/ OSAT	New Sector
Defence Exports	Rs 700 cr	₹38,424 cr	33X

LOK SEVA

Development Rooted in Service

Over the past 12 years, India's governance model has undergone a profound shift, from entitlement-based welfare to empowerment-led public service. At the heart of this transformation lies a simple principle: ensuring that the benefits of development reach every citizen, especially the poor, farmers, middle-class families, and those seeking affordable healthcare. Through technology-driven delivery, expanded social protection, and people-centric schemes, governance has become more transparent, inclusive, and effective.

From rural villages to growing cities, the visible changes are reflected in homes, bank accounts, hospitals, farms, roads, and digital access. Millions who were once excluded from formal systems are now connected to welfare, credit, healthcare, and opportunities with dignity.

Serving the Poor

A major focus of governance has been ensuring basic dignity and economic security for vulnerable households.

- » 4 crore+ houses built under PM Awas Yojana
- » 80 crore+ people receiving free food grains under PMGKAY
- » 58 crore+ Jan Dhan accounts opened for financial inclusion
- » 12 crore+ toilets constructed under Swachh Bharat Mission
- » 25 crore people lifted out of multidimensional poverty since 2014

The JAM trinity, DBT ecosystem, and ONORC framework have transformed welfare delivery into a globally recognised digital governance model. Women, SC/ST communities, tribal groups, street vendors, and gig workers have increasingly entered the formal social security net.

Empowering Farmers

The government's approach towards agriculture has focused on income support, risk protection, and productivity enhancement.

- » ₹4.28 lakh crore transferred through PM-KISAN
- » MSP procurement value increased to ₹26 lakh crore+
- » Agriculture exports reached US\$ 51.1 billion
- » Farmers continue to receive heavily subsidised urea at ₹242 per bag

Digital agriculture initiatives, crop insurance, natural farming, and expanded institutional credit have strengthened resilience for small and marginal farmers.

Strengthening the Middle Class

Over the decade, governance reforms have also significantly improved the ease of living

for the middle class.

- » Tax-free income increased from ₹2 lakh to ₹12.75 lakh
- » Metro rail expanded from 5 cities to 26 cities
- » 66 crore average daily UPI transactions powering digital payments
- » Affordable internet costs reduced from ₹269/GB to ₹8-10/GB

Urban housing, digital governance platforms, faster tax processing, and growing formalisation have expanded economic opportunity and convenience for millions.

Affordable Healthcare for All

Healthcare access has expanded rapidly through infrastructure, insurance, and digital health systems.

- » 43 crore+ Ayushman cards issued
- » 1.84 lakh+ Ayushman Arogya Mandirs operational
- » 19,000+ Jan Aushadhi Kendras providing affordable medicines
- » More than 220 crore vaccine doses administered during COVID-19

SASHAKTIKARAN

Foundation of Inclusive Development

Over the last 12 years, India's development journey has increasingly focused on empowering citizens as active participants in nation-building. The shift has been visible across every section of society — women gaining financial independence, youth becoming innovators and job creators, farmers embracing technology and entrepreneurship, and historically marginalised communities accessing dignity, rights, and opportunity.

This transformation reflects a broader governance approach where development is not limited to welfare delivery alone, but centred on expanding capabilities, opportunities, and participation.

Women at the Centre of Development

A major hallmark of this transformation has been the rise of women-led development.

- » 32 crore+ women Jan Dhan accounts opened
- » 10.57 crore LPG connections provided under Ujjwala
- » 10.5 crore women linked to Self Help Groups
- » 3 crore+ Lakhpati Didis created across rural India
- » Women now receive 2 out of every 3 Mudra loans

Improved maternal healthcare, sanitation, tap water access, paid maternity leave, and rising female labour force participation have strengthened both dignity and economic participation for women.

Youth Powering the Aspirations of Viksit Bharat

India's Amrit Peedhi is increasingly emerging as a force of innovation,

entrepreneurship, and talent.

- » Startups expanded from 350 in 2014 to 2 lakh+ recognised startups
- » 22 lakh+ direct jobs created through startups
- » 1.64 crore youth trained under PMKVY
- » 12 crore+ Mudra loans supporting new entrepreneurs
- » 63,000+ athletes participated in Khelo India Games

Expanded higher education infrastructure, skill development, digital innovation, and sports initiatives are enabling youth to transition from job seekers to job creators.

Empowering Farmers Beyond Agriculture

The focus on farmers has extended beyond production to entrepreneurship, technology, and value creation.

- » ₹4.82 lakh crore sales recorded on e-NAM
- » 11,000+ agri-startups driving innovation
- » Food processing nearly doubled to ₹2.24 lakh crore
- » PM-KISAN disbursed ₹4.28 lakh crore directly to farmers

Digital platforms, food processing, crop insurance, FPOs, and solar-powered initiatives like PM-KUSUM are expanding income opportunities across rural India.

Prioritising the Marginalised

The journey of empowerment has also strengthened inclusion for SCs, STs, OBCs, Divyangjan, transgender persons, and tribal communities.

- » 10% EWS reservation introduced in education
- » 1.36 crore e-UDID cards issued for Divyangjan
- » 2.65 crore SVAMITVA property cards distributed
- » 5 crore tribal citizens covered under Janjatiya Unnat Gram Abhiyan

From constitutional safeguards to targeted welfare and skill development schemes, governance has increasingly focused on dignity, representation, and equitable growth.

RASHTRA PRATHAM

Building a Secure, Strong and Self-Reliant India

Over the last decade, India's national security architecture has undergone a decisive transformation. From a reactive and fragmented framework, the country has moved towards a more proactive, integrated, and strategic approach centred on national interest. Under Prime Minister Narendra Modi, security has expanded beyond military preparedness — encompassing diplomacy, internal stability, border infrastructure, counter-terror operations, and defence self-reliance.

This transformation reflects a broader "Nation First" doctrine where India increasingly acts with confidence, strategic autonomy, and decisive intent in a rapidly changing global order.

Foreign Policy: India's Rising Global Influence

India's foreign policy has evolved into a model of strategic autonomy and multi-alignment, strengthening global partnerships while protecting national interests.

- » \$748 billion FDI received between 2014–2025
- » Energy imports diversified from 27 to 41 countries
- » 30.12 crore COVID vaccines supplied to 99 countries under Vaccine Maitri
- » 100% consensus achieved during the New Delhi G20 Leaders' Declaration

Landmark trade agreements, leadership of the Global South, and stronger engagement with the US, EU, Gulf nations, ASEAN, and strategic partners have significantly expanded India's global footprint.

From Red Corridor to Naxal-Mukt Bharat

India's fight against Left-Wing Extremism has witnessed historic success through the SAMADHAN strategy combining security, connectivity, and development.

- » LWE-affected districts reduced from 126 to just 2
- » 88% decline in Naxal violence
- » 15,068 km roads built in affected regions
- » 9,627 mobile towers installed
- » 2,337 Naxals surrendered in 2025 alone

Areas once affected by decades of violence are now witnessing roads, schools, telecom connectivity, banking access, and development-led governance.

Modernising Defence, Strengthening Self-Reliance

India's defence transformation has accelerated through indigenisation, military reforms, and strategic capability expansion.

- » Defence exports surged from ₹686 crore to ₹38,424 crore
- » Defence budget increased to ₹7.85 lakh

crore in FY27

- » Defence production crossed ₹1.54 lakh crore
- » Over 5,500 defence items placed under indigenisation lists
- » INS Vikrant and INS Arighaat strengthened maritime capability

A Zero-Tolerance Approach to Terrorism

India's counter-terror doctrine has shifted from restraint to decisive action.

- » Terror incidents in J&K declined by 69%
- » Stone pelting incidents reduced to zero since 2023
- » NIA conviction rate crossed 95%
- » Operation Sindoor destroyed 9 terror camps
- » Over 93% of the Pakistan border fenced

From the Surgical Strikes and Balakot Air Strike to Operation Sindoor, India has established a new security posture where terrorism is met with swift and calibrated response

VIKAS BHI, VIRASAT BHI

Journey Rooted in Civilisational Reawakening

India's growth story over the last 12 years has not been limited to economic development and infrastructure expansion alone. It has also reflected a deeper national effort to reconnect with the country's civilisational roots, cultural confidence, environmental stewardship, and spiritual heritage. From restoring sacred sites and preserving ancient traditions to leading global climate action and wildlife conservation, governance has increasingly embraced the idea that development and heritage must move together.

This philosophy — Vikas Bhi, Virasat Bhi — has shaped a new model of nation building where modernisation coexists with cultural continuity and ecological responsibility.

Restoring Heritage and Civilisational Confidence

India's heritage conservation efforts have

expanded significantly through restoration projects, pilgrimage infrastructure, digital preservation, and cultural reclamation.

- » UNESCO World Heritage Sites increased from 32 to 44
- » Antiquities repatriated rose from 13 to 653
- » India now has 11 Classical Languages, the highest globally
- » 12.3 lakh antiquities and 11,406 heritage sites digitised
- » Over ₹1,900 crore invested under the PRASHAD Scheme

Projects like Kashi Vishwanath Dham, Mahakaal Lok, Kedarnath redevelopment, Char Dham connectivity, and heritage city rejuvenation under HRIDAY have transformed spiritual centres into vibrant cultural and economic hubs

A Cultural Renaissance Rooted in Bharat's Identity

India's cultural resurgence has strengthened both national pride and global soft power.

- » 66 crore devotees participated in Maha Kumbh 2025
- » Ayodhya recorded 50 crore+ visitors in four years
- » 173 countries co-sponsored International Yoga Day at the UN
- » 23 crore+ homes joined the Har Ghar Tiranga campaign
- » Cultural exchanges now cover 192 countries

Initiatives such as Ek Bharat Shreshtha Bharat, Kashi Tamil Sangamam, National Mission on Cultural Mapping, and the people-led Padma Awards have deepened cultural participation and national integration

Leading the Green and Sustainability Transition

India has emerged as a major global voice on climate action and sustainable development.

- » Renewable energy capacity increased from 76 GW to 274.68 GW
- » Solar capacity surged from 2.82 GW to 150 GW
- » 36.87 crore LED bulbs distributed under UJALA
- » 24.5 lakh EV sales recorded in FY26
- » PM Surya Ghar empowered 36.88 lakh households

Mission LiFE, the International Solar Alliance, ethanol blending, Green Hydrogen Mission, and renewable energy expansion have strengthened India's transition towards cleaner growth.

A New Era of Wildlife and Environmental Conservation

India's conservation efforts increasingly combine community participation, scientific management, and ecological restoration.

- » Ramsar sites increased from 26 to 100
- » Tiger population rose from 2,226 to 3,682
- » Protected areas expanded from 745 to 1,134
- » 262 crore saplings planted under Ek Ped Maa Ke Naam
- » Forest and tree cover reached 25.17% of geographical area

PM SVANIDHI

Six Years of Empowering Street Vendors

Street vendors form the backbone of India's urban economy, providing affordable goods and essential services while supporting local markets and neighbourhood supply chains. Yet for decades, many operated outside the formal financial system, relying on informal lenders and high-interest borrowing.

Launched in June 2020, the Prime Minister Street Vendor's AtmaNirbhar Nidhi (PM SVANidhi) sought to change this reality. Six years later, the scheme has evolved into a landmark initiative promoting financial

inclusion, digital empowerment and social security for millions of street vendors across the country.

Expanding Access to Opportunity

PM SVANidhi was introduced as a first-of-its-kind micro-credit scheme offering collateral-free working capital loans backed by a government credit guarantee. Anchored in the vision of Swarozgar, Svavlamban and Swabhimaan, the initiative has enabled vendors to strengthen and expand their businesses while gradually integrating into the formal economy.

Key Milestones

- » 1.12 crore+ loans disbursed
- » ₹17,800 crore+ in total loan value
- » 75.5 lakh+ beneficiaries covered
- » 55 lakh+ vendors digitally onboarded
- » 841 crore digital transactions recorded
- » Digital transactions worth nearly ₹8.96 lakh crore
- » Nearly ₹800 crore transferred through interest subsidies and cashback incentives

Reflecting its success and continued relevance, the scheme has been extended until March 2030.

Driving Financial Inclusion and Economic Growth

Independent impact assessments conducted in 2023 and 2025 demonstrate the scheme's transformative effect on vendor livelihoods. Nearly 95% of beneficiaries accessed formal institutional credit for the first time through PM SVANidhi, marking a significant step towards financial inclusion. Importantly, around 30% of beneficiaries later secured additional credit beyond SVANidhi loans, indicating improved creditworthiness and greater trust from financial institutions.

Beyond Loans: Empowering Communities

The impact of PM SVANidhi extends beyond enterprise support. Improved incomes have contributed to better housing stability, greater access to healthcare and education, and enhanced household welfare. The scheme has also advanced social inclusion, with 46% of beneficiaries being women and nearly 70% belonging to marginalised communities.

By encouraging digital payments and formal financial participation, PM SVANidhi has helped vendors become active participants in India's growing digital economy.

Building Resilient Urban Economy

Over the past six years, PM SVANidhi has transformed the lives of millions of street vendors by creating pathways to credit, digital inclusion and economic security. More than a loan programme, it represents a shift in how urban development is envisioned—recognising street vendors not as informal workers on the margins, but as vital contributors to India's growth story. As the scheme enters its next phase, it continues to advance the goals of self-reliance, dignity and inclusive development for urban India.

ROZGAR MELA

Connecting Talent with Opportunity

As India accelerates its journey towards becoming a developed nation by 2047, employment generation remains at the heart of its growth story. Reinforcing this commitment, Prime Minister Narendra Modi distributed more than 51,000 appointment letters to newly recruited candidates during the 19th Rozgar Mela. The initiative has emerged as a significant platform for connecting India's youth with meaningful public service opportunities while contributing to the broader vision of Viksit Bharat.

A National Mission for Employment

Addressing newly appointed recruits from sectors such as railways, banking, defence, health, and education, the Prime Minister highlighted the crucial role of young professionals in shaping India's future. The Rozgar Mela reflects the Government's sustained focus on creating employment opportunities through both direct recruitment and economic expansion.

The initiative complements a larger employment ecosystem driven by infrastructure development, industrial growth, technological innovation, and skill enhancement.

Building Jobs Through Future-Ready Sectors

India's employment landscape is being transformed by strategic investments in emerging industries. During the event, the Prime Minister highlighted several sectors expected to generate substantial employment over the coming decades:

- » Semiconductor manufacturing and electronics production
- » Artificial Intelligence and digital technologies
- » Green hydrogen and clean energy
- » Shipbuilding and maritime infrastructure
- » Aviation Maintenance, Repair and Overhaul (MRO) services

» Advanced manufacturing and critical minerals

The Prime Minister noted that India is building a complete semiconductor ecosystem, while the Production Linked Incentive (PLI) Scheme is boosting domestic manufacturing and creating jobs across the electronics value chain.

Global Partnerships, Local Impact

Recent international collaborations with countries such as the Netherlands, Sweden, Norway, the UAE, and Italy are opening new avenues for Indian youth. Partnerships in semiconductors, AI, clean energy, advanced manufacturing, defence, and maritime cooperation are expected to create employment opportunities while providing global exposure and access to cutting-edge technologies.

These partnerships reflect India's growing stature as a trusted global partner and a preferred destination for investment and innovation.

Empowering Youth, Accelerating Nation Building

The Rozgar Mela represents far more than a recruitment drive. It is part of a broader strategy that links employment generation with economic growth, technological advancement, infrastructure development, and global partnerships.

As thousands of young Indians begin their journey in public service, they become active contributors to the nation's development story. Their energy, skills, and commitment will play a crucial role in transforming the vision of Viksit Bharat into reality and shaping the India of tomorrow.

EXPANDING GLOBAL FOOTPRINT

PM Modi's Five-Nation Diplomatic Mission

India's foreign policy continues to gain momentum as the country deepens its engagement with key global partners. Prime Minister Narendra Modi's recent visits to the Netherlands, Sweden, Norway, the United Arab Emirates, and Italy have resulted in landmark agreements and upgraded partnerships that reflect India's growing influence on the world stage. These engagements not only strengthened bilateral ties but also reinforced India's commitment to building a future anchored in innovation, sustainability, economic growth, and global cooperation.

Netherlands: A Strategic Partnership for the Future

Prime Minister Modi's visit to the Netherlands marked a defining moment in bilateral relations with the elevation of ties to a Strategic Partnership. The visit reflected the growing convergence between the two nations in emerging technologies, green growth, maritime cooperation, and water management.

Key Outcomes

- » Strategic Partnership established
- » Green Hydrogen Roadmap launched
- » Semiconductor & AI cooperation
- » Defence and maritime collaboration
- » Water partnership strengthened
- » Agri-tech cooperation expanded
- » Mobility agreement signed
- » Chola-era artefacts returned

The visit laid the groundwork for a future-oriented partnership driven by innovation, sustainability, and shared prosperity.

Sweden: Innovation-Led Cooperation

India and Sweden elevated their relationship to a Strategic Partnership, underscoring a shared vision for technology-led growth and sustainable development. The visit highlighted the strong complementarity between India's scale and Sweden's innovation ecosystem.

Key Outcomes

- » Strategic Partnership announced
- » Joint Action Plan 2026–2030 adopted
- » AI and Technology Corridor launched
- » Deep-tech and semiconductor collaboration
- » Green transition initiatives expanded
- » Defence and cybersecurity cooperation
- » Space and research partnerships strengthened

The partnership reflects a mutual commitment to shaping the technologies and industries of the future.

Norway: A Green Strategic Partnership

Prime Minister Modi's visit to Oslo ushered in a new phase in India-Norway relations with the launch of a Green Strategic Partnership. The two countries reaffirmed their shared commitment to sustainability, clean energy, and maritime cooperation.

Key Outcomes

- » Offshore wind and green shipping cooperation
- » Climate finance collaboration
- » Green Strategic Partnership launched
- » Blue Economy partnership expanded
- » AI and digital innovation cooperation
- » ISRO–Norwegian Space Agency MoU
- » Arctic research collaboration strengthened
- » Norway's highest honour conferred

The visit showcased the growing importance of green growth and ocean-based cooperation in India's engagement with the Nordic region.

UAE: Deepening a Comprehensive Strategic Partnership

The United Arab Emirates remains one of India's closest strategic and economic partners. Prime Minister Modi's visit further expanded cooperation across energy, investments, defence, technology, and connectivity.

Key Outcomes

- » Energy partnership expanded
- » USD 5 billion investment commitment
- » Strategic petroleum reserves collaboration
- » Defence Partnership Framework signed
- » AI supercomputing initiative launched
- » Virtual Trade Corridor operationalised
- » Fintech and digital cooperation enhanced
- » Maritime security cooperation strengthened

The outcomes reaffirmed the UAE's central role in India's energy security, economic growth, and regional engagement.

Italy: A Special Strategic Partnership

elevated their ties to a Special Strategic Partnership. The move reflects growing strategic convergence between the two countries across economic, technological, and geopolitical domains.

Key Outcomes

- » Special Strategic Partnership announced
- » €20 billion trade target by 2029
- » INNOVIT India launched
- » Green energy cooperation expanded
- » Defence Industrial Roadmap adopted
- » Maritime Security Dialogue launched
- » IMEC cooperation reaffirmed
- » 2027 declared Year of Culture and Tourism

The partnership opens new avenues for collaboration in innovation, connectivity, defence manufacturing, and cultural exchange.
