India Post: Reimagining a
Trusted Network for a Digital
Economy

*"Let the dream be ours
Let the resolve be ours
Let the flag of an*

AATMANIRBHAR BHARAT

be ours"

Our sovereign ratings are one example of the growing trust in India

- PM Narendra Modi

FROM THE CEO'S DESK

Dear Readers,

India's journey of transformation is being shaped by a powerful combination of citizen participation, innovation, institutional transformation and global engagement. This edition of MyGov Pulse brings together stories that reflect this momentum and the many dimensions of a rapidly evolving India.

At the heart of this journey is the voice of citizens. Through the Engagement Corner and MyGov States Instances, we showcase how ideas, participation and local initiatives continue to contribute to the nation's development. These

stories remind us that transformation becomes meaningful when it reaches communities and creates opportunities for people across the country.

We also celebrate milestones that reflect India's commitment to its people. The 100-year journey of SRCC, the contribution of teachers, and eight years of Ayushman Bharat represent enduring investments in education, human capital and accessible healthcare.

Our Transforming India stories further spotlight the nation's progress across sectors. From Make in India and a stronger defence ecosystem to the transformation of India Post into a technology-enabled, citizen-centric network, traditional institutions are being reimagined to serve the needs of a new India.

As we look ahead, the strength of this transformation lies in our collective ability to participate, innovate and build together.

I invite you to explore this edition of MyGov Pulse and discover the stories, ideas and milestones that continue to shape India's journey.

Ajit Kumar, IAS,
CEO, MyGov

MYGOV STATE INSTANCES

Celebrating 9 years of Jan Bhagidari, MPMYGov continues to strengthen citizen participation through ideas, suggestions, polls, contests and campaigns, with 2.55+ lakh registered users. Reflecting this spirit of participation, citizens are also being invited to contribute creative designs for the logos of the CM Majra Tola Road Scheme and Damaged Bridges Reconstruction Scheme, supporting initiatives aimed at strengthening connectivity across Madhya Pradesh.

Maati Ganesh – Siddh Ganesh Pledge

The Maati Ganesh: Siddh Ganesh campaign encourages citizens to embrace eco-friendly celebrations by promoting the use of clay idols of Lord Ganesha. The initiative highlights the importance of traditional practices while fostering environmental responsibility.

Arunachal Pradesh: Empowering Communities, Strengthening Rural Development

Arunachal Pradesh is advancing rural development through initiatives focused on agriculture, fisheries and education. The State Agriculture Information Hub-cum-Farmers' Hostel at Naharlagun is supporting farmer training, technical knowledge, value addition and market access, while the Matsya e-Vaahini and e-Rickshaw Initiative is enabling direct farmer-to-consumer fish sales and improving market access. Recognising excellence in education, Yaku Tame, Headmistress of Government Secondary School, G-Sector, Naharlagun, was honoured with the National Teachers' Award 2026 for over four decades of dedicated service, including contributions to girls' education, adult literacy and cultural preservation.

TRANSFORMING INDIA STORIES (1-15 SEPTEMBER)

BRICS 2026

UNDER INDIA'S CHAIRSHIP

The 18th BRICS Summit, held in New Delhi from 11–13 September 2026 under India's Chairship, marked two decades of BRICS cooperation and its continued evolution as an expanded platform of the Global South. Guided by the theme "Building for Resilience, Innovation, Cooperation and Sustainability," India placed practical cooperation, inclusive growth, innovation and stronger multilateralism at the heart of its agenda. The adoption of the New Delhi Declaration reaffirmed the grouping's commitment to a more representative, fair and responsive global order.

BRICS Business Forum: Economic Strength, Global Solutions

The BRICS Business Forum brought together leaders and business representatives from across the expanded grouping, setting the economic context for the Leaders' Summit. PM Modi, alongside leaders from Russia, South Africa, Iran, Egypt, Ethiopia, Indonesia and senior representatives from other BRICS members, highlighted the growing economic significance of the grouping.

Addressing the Forum, PM Modi noted that BRICS countries account for 50% of the world's population, 40% of global GDP and 25% of global trade. He called for deeper intra-BRICS trade, stronger economic connectivity, greater participation of women entrepreneurs and the removal of trade barriers. The discussions underscored the need to translate BRICS' collective economic strength into practical cooperation and global solutions.

Advancing Inclusive Global Governance

At the session on Inclusive Global Governance and Strengthening Multilateralism, PM Modi emphasised India's people-centric and Humanity First approach. He called for the Global South to move from being rule-takers to becoming meaningful rule-shapers, while strengthening multilateral institutions.

India proposed a BRICS Reform Roadmap centred on Representation, Responsiveness and Rule-Making. Practical initiatives, including a Seafarers' Emergency Support Network, reflected the focus on converting shared priorities into actionable cooperation.

From Vision to Impact

The discussions on Resilience, Innovation, Cooperation and Sustainability brought diverse perspectives on building a resilient, innovative and inclusive future. PM Modi highlighted the growing relevance and openness of BRICS, stressing that cooperation must extend beyond governments to farmers, entrepreneurs, researchers, women, youth and citizens.

The closing session focused on implementation and last-mile impact. PM Modi emphasised that BRICS should function as an ecosystem for solutions, with outcomes moving beyond institutional frameworks to deliver tangible results in people's lives.

Carrying the BRICS Spirit Forward

As India concludes its 2026 BRICS Chairship, the focus now moves from New Delhi to China, which will assume the BRICS Chairship for 2027. India's Chairship placed resilience, innovation, cooperation and sustainability at the centre of efforts to build a more inclusive and responsive global partnership.

INDIA'S GLOBAL ENGAGEMENTS

India-Belgium Partnership: Advancing Trade, Technology & Strategic Cooperation

At the India-Belgium Joint Press Meet with PM Bart De Wever, PM of Belgium, PM Modi highlighted the growing strategic partnership between the two nations. India has established an Investment Fast Track Mechanism for Belgian companies and aims to double bilateral trade over the next five years. Cooperation is expanding beyond traditional sectors to defence, clean energy and semiconductors. The two countries are working together on advanced defence equipment, including the Zorawar tank, and a

major green ammonia project in Kakinada, Andhra Pradesh. PM Modi also emphasised collaboration for global peace and a shared commitment to combating terrorism.

A New Landmark in India-France Cultural Ties

The inauguration of the BAPS Swaminarayan Hindu Mandir in Paris marks a new milestone in India-France cultural relations. Addressing the gathering, Prime Minister Shri Narendra Modi highlighted the temple as a symbol of India's timeless philosophy of Vasudhaiva Kutumbakam and the enduring bonds between the two nations. Reflecting the blend of Indian craftsmanship and French engineering, the temple embodies cultural exchange, cooperation and shared possibilities.

Exploring Space, Together for Humanity

Addressing the first International Space Summit in Paris on 10 September 2026, Prime Minister Shri Narendra Modi called for a safe, secure, peaceful and sustainable space domain rooted in international law and multilateral cooperation. Highlighting India's growing space capabilities, he noted ISRO's global standing and its contributions to Earth observation, navigation and disaster management.

PM MODI IN GUJARAT Strengthening Infrastructure, Powering India's Growth

₹35,000 Crore Development Push

Prime Minister Shri Narendra Modi laid the foundation stones, inaugurated and dedicated development projects worth more than ₹35,000 crore in Vadodara, Gujarat, underlining the Government's focus on strengthening infrastructure and creating new engines of economic growth.

Building Faster Connectivity

A key milestone was the completion of the final links of India's Dedicated Freight Corridor network, strengthening the movement of goods across the country. The expanding

freight infrastructure is set to support faster logistics, improve connectivity and facilitate more efficient movement of goods.

From Chips to Ships

The projects also reflect India's expanding manufacturing ecosystem, with investments spanning infrastructure and industrial development. The Prime Minister highlighted the country's growing capabilities across emerging and strategic sectors, reinforcing the vision of building a stronger and more self-reliant manufacturing base.

Preparing for a Viksit Bharat

The projects also reflect India's expanding manufacturing ecosystem, with investments spanning infrastructure and industrial development. The Prime Minister highlighted the country's growing capabilities across emerging and strategic sectors, reinforcing the vision of building a stronger and more self-reliant manufacturing base.

GLOBAL FINTECH FEST

At the Global Fintech Fest 2026 in Mumbai on 8 September 2026, Prime Minister Shri Narendra Modi highlighted India's remarkable fintech transformation and called for the sector to move beyond digital payments towards a broader, more inclusive financial ecosystem.

UPI: A Decade of Digital Transformation

Marking 10 years of UPI, PM Modi noted that the platform has become a powerful instrument of financial inclusion. In August 2026 alone, more than 2,400 crore UPI transactions were recorded, reflecting the scale of India's digital payments ecosystem. UPI has also expanded internationally and is now live in 11 countries. He emphasised that the next step is deeper integration of India's payment infrastructure with systems in other countries.

Fintech for Wider Financial Inclusion

The address stressed the need to expand fintech beyond payments, increasing access to credit, insurance, savings, investments and pensions. The success of PM SVANidhi, which has connected millions of street vendors with formal financial services, was cited as an example of technology-enabled inclusion. According to the address, beneficiaries have recorded an average annual income increase of more than 20%, and the scheme has been extended until 2030.

Building the Next Generation of Fintech

Looking ahead, the Prime Minister highlighted emerging technologies including Agentic AI, tokenisation and quantum technologies. He called for stronger cybersecurity, ethical data-protection standards, closer regulator-industry innovation, and a Fintech Consumer Protection Index.

CELEBRATING TEACHERS, INSPIRING A NATION

On 5th September, on the occasion of National Teacher's Day, PM Modi interacted with the winners of the National Teachers Awards, recognising their dedication, creativity and contribution to shaping the learning journeys of young Indians. This year, 82 teachers and educators from school education, higher education, polytechnics and skill development have been selected for the National Teachers Awards.

During the interaction, awardees shared innovative approaches adopted in their classrooms to make learning more engaging, experiential and effective. Prime Minister Shri Narendra Modi emphasised that the role of teachers extends beyond academic performance, calling for greater attention to children's behaviour, interests and everyday experiences.

Highlighting emerging challenges faced by young learners, the PM urged teachers to remain alert to signs of drug addiction among students and help them overcome such difficulties. He also highlighted growing concerns around excessive screen time, encouraging teachers to engage with parents and promote sports, physical games and creative activities as healthier avenues for children.

Emphasising the importance of preserving childhood and nurturing curiosity, PM Modi noted that teachers can play a vital role in guiding children's natural inquisitiveness towards constructive learning. He also underscored the need to take learning beyond the classroom by connecting students with real-world skills and experiences.

At the centenary celebrations of Shri Ram College of Commerce (SRCC), Prime Minister Shri Narendra Modi celebrated its remarkable journey and motivated young Indians to dream beyond the obvious.

From a Glass Half-Empty to a Nation Full of Possibilities

Revisiting his memorable 2013 SRCC address, PM Modi recalled the metaphor of a glass: some see it as half-full, some as half-empty, but he chose to see it as completely full half with water and half with air.

The message was simple: India's potential was never empty.

Highlighting the country's transformation

since then, he pointed to progress across financial inclusion, manufacturing, defence and infrastructure. The Pradhan Mantri Jan Dhan Yojana has enabled nearly 600 million new bank accounts over 12 years, helping create the foundation for India's fintech revolution.

India has moved from importing most mobile phones to exporting mobile phones worth over ₹2.5 lakh crore. Defence production has reached nearly ₹2 lakh crore, while defence exports have grown to nearly ₹40,000 crore. Railway electrification has also accelerated dramatically from less than 30% before 2014 to nearly 100% in just 12 years.

Dream Big. Build Global.

For today's youth, the ambition is no longer limited to getting a good job.

Dream of building a startup, scaling it into a unicorn, pioneering cutting-edge AI, transforming agriculture, exploring space and drones, and creating solutions that can shape the world.

PM Modi urged young Indians to ask a bigger question: If Indians are leading the world's biggest companies, why can't companies created by Indians lead the world? He envisioned India becoming a global hub for manufacturing, research and innovation, a major agricultural export power and a nation with its own space station.

The Next 100 Years Starts Now

Drawing inspiration from SRCC's crest, the rising sun and the ship sailing forward. PM Modi called upon students to chart new paths with courage, ambition and self-belief.

The dream is ours. The direction is ours. The journey is ours.

From SRCC@100 to a Viksit Bharat, PM's message to young India is clear: think bigger, build boldly and turn ambition into impact.

8 YEARS OF AYUSHMAN BHARAT

Expanding the Reach of Affordable Healthcare

8 years ago, India embarked on an ambitious journey to make quality healthcare more accessible and affordable for millions of citizens. Launched in September 2018, Ayushman Bharat Pradhan Mantri Jan Arogya Yojana (AB-PMJAY) has emerged as a major pillar of India's health assurance framework, providing eligible families with health cover of up to ₹5 lakh per family per year for secondary and tertiary hospitalisation. The scheme now also covers all senior citizens aged 70 years and above.

From Health Coverage to Healthcare Access

Over the years, AB-PMJAY has expanded its reach across the country. As of August 2026, more than 45.5 crore Ayushman Cards have

been issued, while 12.69 crore hospitalisations have been covered, involving an amount of ₹1.92 lakh crore as of June 30, 2026. More than 38,466 public and private hospitals are empanelled under the scheme, creating a wide healthcare network for beneficiaries.

The scheme also strengthens the principle of portability of healthcare benefits. More than 29.05 lakh inter-State portability hospital admissions, amounting to over ₹8,383.97 crore, have been authorised as of June 30, 2026, enabling beneficiaries to access treatment beyond their home State.

Bringing Healthcare Closer to Communities

Ayushman Bharat goes beyond hospitalisation. More than 1.86 lakh Ayushman Arogya Mandirs are now functional across the country, offering 12 free services and

recording a cumulative footfall of over 540 crore. Together, these initiatives are helping strengthen the continuum of care—from preventive and primary healthcare to specialised treatment.

A Digital Backbone for a Connected Health System

The Ayushman Bharat Digital Mission (ABDM) complements this transformation by creating a digital foundation for healthcare delivery. As of August 2026, more than 96.43 crore ABHA health IDs had been created, with over 110 crore health records linked to ABHA. More than 5.47 lakh health facilities and 10.50 lakh healthcare professionals have also been registered on the platform.

Eight Years, A Continuing Healthcare Journey

Eight years of Ayushman Bharat reflect a continuing effort to make healthcare more accessible, affordable and connected. From financial protection against hospitalisation to stronger primary care and digital health infrastructure, the initiative represents a broad-based approach to building a more inclusive healthcare ecosystem for citizens across India.

MAKE IN INDIA: FORGING A STRONGER DEFENCE ECOSYSTEM

India's journey towards Aatmanirbharta in defence is gaining momentum, with indigenous manufacturing, innovation and private-sector participation emerging as key pillars of a stronger defence ecosystem.

Indigenous Capabilities Strengthening National Security

The growing deployment of Made-in-India defence equipment reflects the expanding capabilities of India's domestic defence industry. The effectiveness of indigenously developed weapons and systems, along

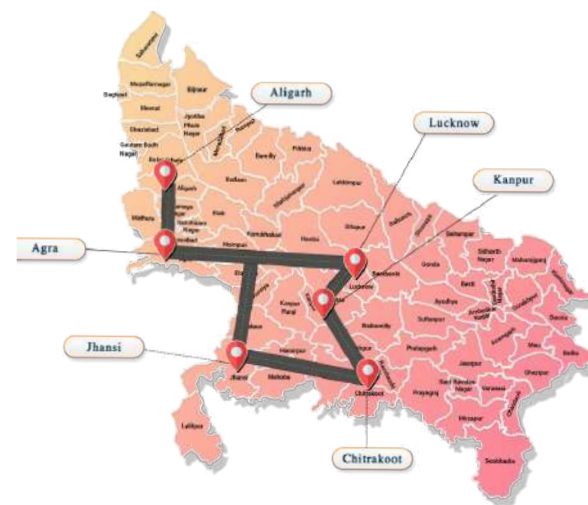

with the courage and determination of the armed forces, contributed to the capabilities demonstrated during Operation Sindoor. The effort represents collaboration across the Government, Defence Public Sector Undertakings (DPSUs), private industry, innovators, start-ups and MSMEs.

MSMEs and Start-ups Driving Innovation

India's defence transformation is extending beyond traditional manufacturers. Start-ups and MSMEs are becoming important

contributors to innovation and technology development. Equipment and technologies relevant today can become obsolete tomorrow, making continuous innovation essential. The Government has therefore encouraged industry to anticipate emerging technological requirements and remain ahead of the technology curve.

From Innovation to Industrial Capability

The Uttar Pradesh Defence Industrial Corridor is another important component of this expanding ecosystem. Its development is helping create an environment for defence manufacturing and technological innovation, while connecting industry with emerging opportunities in the sector.

Building a Future-Ready Defence Industry

The convergence of technology, industry and soldiering is creating new avenues for collaboration between the armed forces and domestic industry. Greater self-reliance can support strategic autonomy, technological sovereignty and the development of capabilities tailored to operational requirements.

From indigenous equipment and defence exports to start-ups, MSMEs and industrial corridors, Make in India is strengthening the foundations of a more innovative and self-reliant defence manufacturing ecosystem—one that seeks to build capabilities in India while preparing for the security challenges and technologies of tomorrow.

INDIA POST Reimagining a Trusted Network for a Digital Economy

With its vast presence across rural, semi-urban and urban India, India Post is evolving from a traditional postal network into a technology-enabled, business-oriented service platform.

The transformation is reflected in its growing business footprint. India Post's revenue increased from ₹13,218 crore in FY25 to ₹15,296 crore in FY26. During FY26, it handled 7.49 crore domestic parcels, around 72 lakh international parcels and 87.37 crore mail articles.

Connecting Citizens, Markets and Services

India Post is expanding its logistics and e-commerce capabilities through

partnerships with platforms and logistics companies, while Dak Ghar Niryat Kendras support exporters. Its network also strengthens financial inclusion, with 40.05 crore active Post Office Savings Bank accounts, over 13 crore India Post Payments Bank accounts, and 1.31 crore active Postal Life Insurance and Rural Postal Life Insurance policies.

A Phygital India Post

Technology-led initiatives such as Dak Seva, IT 2.0, UPI payments, OTP-based delivery and modern parcel systems are enhancing convenience. With modernised post offices, improved infrastructure and emerging AI-enabled services, India Post is building a connected ecosystem that brings together logistics, finance, technology and citizen services—advancing the vision of "Dak Seva, Jan Seva."

PROUD MOMENTS Reaching New Frontiers in Space

India marked another proud moment in its space journey with the successful launch of GSLV-F17 carrying EOS-05, further showcasing the nation's growing capabilities in space technology. The mission reflects the precision, innovation and technological excellence of ISRO, strengthening India's capabilities in advanced Earth observation from Geosynchronous orbit.

Congratulating the ISRO team, Prime Minister Shri Narendra Modi described the achievement as a reflection of the excellence and innovation that define India's space programme. The successful mission adds another milestone to India's pursuit of self-reliance in space technology and its continued journey towards new frontiers of exploration and innovation.

Junior Men's Hockey Team Wins Asia Cup

India's Junior Men's Hockey Team clinched the Asia Cup with a commanding 4-1 victory in the final, marking another proud

moment for Indian hockey. Prime Minister Shri Narendra Modi congratulated the young players, recognising their remarkable achievement and immense talent. The victory reflects the growing strength of India's young sporting talent and adds another milestone to the country's journey of excellence on the international hockey stage.

India's Women Cricketers Lift the Asia Cup

India's Women's Cricket Team clinched the Asia Cup, marking another proud moment for Indian cricket. PM Modi congratulated the team, highlighting their confidence, consistency and remarkable spirit throughout the tournament.

CABINET DECISIONS

Boosting Rail Connectivity & Capacity (9 September 2026)

The Cabinet Committee on Economic Affairs, chaired by Prime Minister Shri Narendra Modi, approved three multi-tracking railway projects worth ₹10,783 crore, adding about 656 km to the network across West Bengal, Jharkhand, Odisha, Madhya Pradesh and Chhattisgarh. The projects will enhance connectivity to 4,790 villages, benefit nearly 56 lakh people, ease congestion and support 27 MTPA additional freight movement, while reducing logistics costs, oil imports and CO₂ emissions.

Enhancing Rail Capacity & Connectivity (9 September 2026)

The Cabinet Committee on Economic Affairs, chaired by Prime Minister Shri Narendra Modi, approved five multi-tracking railway projects worth ₹10,021 crore, adding about 540 km to the network across Tamil Nadu, Andhra Pradesh, Karnataka and Telangana. The projects will enhance connectivity to 2,121 villages, benefiting nearly 52 lakh people, while easing congestion and enabling 47 MTPA additional freight movement. The projects will also support lower logistics costs, reduced oil imports and CO₂ emissions.

Expanding Social Security Coverage (16 September 2026)

The Cabinet, chaired by Prime Minister Shri Narendra Modi, approved raising the EPFO mandatory wage ceiling from ₹15,000 to ₹25,000 per month. The move is expected to bring over 51 lakh additional employees under mandatory social security coverage, expanding access to provident fund, pension and insurance benefits. The decision will strengthen employment formalisation, retirement security and worker welfare, while advancing India's long-term vision of Viksit Bharat@2047.
